## Niçin Venni 3D Dekoratif MDF Panel Kullanmalısınız?

CNC makineleri ile üretilmesi zor ve uzun zaman alan dekorlar, Venni 3D Dekoratif MDF Panellerimiz sayesinde sizlere hızlı ve hazır olarak sunulmaktadır.

Kapsamlı zımparalama işlemini ortadan kaldırarak üretimizi her zamankinden daha hızlı tamamlayacaksınız.

Yüksek teknoloji kullanılarak ürettiğimiz panellerimizin özel yüzeyi, astar ve son kat lake boya tüketiminizi de önemli ölçüde azaltmaktadır.

Zaman, işçilik ve hammadde tasarrufunuz ile kalitenizden ödün vermeden üretim kapasitenizi ve kârlılığınızı artıracaksınız.

Venni 3D Dekoratif MDF Panellerimiz 18mm x 1220 x 2700mm ölçülerinde arka yüzeyi düz beyaz melamin kaplı ve ham olarak üretilmektedir.

## Why Should You Use Venni 3D Decorative MDF Panels?

Thanks to our Venni 3D Decorative MDF Panels, decors that are difficult to produce with CNC machines and take a long time are offered to you quickly and ready.

You will complete your production faster than ever by eliminating the extensive sanding process.

The special surface of our panels, which we produce using high technology, also significantly reduces your primer and final coat lacquer paint consumption.

With your time, labor and raw material savings you will increase your production capacity and profitability without compromising your quality.

Our Venni 3D Decorative MDF Panels are produced in 18mm x 1220 x 2700mm dimensions with a plain white melamine back surface and raw.
